

# Abiy Teklu

## Junior Web And Mobile App Developer

I'm a junior front-end developer ready for a new challenge as a web and app developer. With over a year of experience in HTML, CSS, Flutter, and WordPress, I can contribute effectively to projects. I excel in teamwork, possess strong communication skills, and stay updated with new technologies. My goal is to utilize my technical and creative abilities to help clients achieve their visions while continuously growing through learning opportunities.

English

*Limited Working Proficiency*

Amharic

*Full Professional Proficiency*

## INTERESTS

Application Development

AI(Artificial intelligence)

Web development

## EDUCATION

### Bsc In Computer Science and Engineering

Adama Science And Technology University

02/2019 - Present

## PERSONAL PROJECTS

### QrMenu(Digital Menu) (03/2023)

- I created a visually attractive and user-friendly website by using flutter used to show the menu of the restaurant and it also have admin panel that helps the restaurant to control and edit what they want in the menu by using flutter mobile app or website The digital menus offered by QR are highly customizable, allowing restaurants to showcase their dishes with enticing descriptions, vibrant images, and even allergen or dietary information. link : [bit.ly/mafi](https://bit.ly/mafi)

### Reastaurant website (08/2022)

- a static restaurant website that efficiently displayed the menu, address, opening times, and contact details. I used WordPress to develop a website that effectively communicated the restaurant's identity and offers while also being visually attractive and user-friendly. To provide the best viewing on many devices, including desktop PCs and mobile devices, I also developed responsive design.
